**Warren County, Ohio, Funeral Home Record Preservation Project**

In 2006, the Warren County Genealogical Society began a Funeral Home record preservation project by offering to photocopy original records from funeral homes serving in Warren County and providing the funeral home with a set of the copied records and an index to them. A second set of the records is maintained in the Warren County Genealogical Society Resource Center for patron use.

The information gathered during this project has been published as a series of seven volumes of **Warren County, Ohio, Funeral Records** containing information about 63,773 funerals recorded in 291 volumes of records from fifteen different funeral homes. They occupy over 54 lineal feet of shelf space in our library. A master funeral record index is also available.

For those who are not able to visit our Resource Center, we have put name indexes for each volume on line. These may viewed on our website which may be reached at <http://www.co.warren.oh.us/genealogy/FuneralHomeRecords.htm>.

You may also order a copy of the record for an individual funeral be using our photocopy request form at <http://www.co.warren.oh.us/genealogy/DownloadableForms.htm> Some records are more than one page.

**PUBLICATION & FUNERAL HOME NAMES**
